The Direct Correlation to the Formation of Man is in The Book of Genesis

We are in the Mind's Eye here…He is in Reflection, its a rebirth of the mind. There is distillation there, purifying one's soul ~ The SamaVeda

In the Beginning there was an empty vessel or the formation of the soul, it is holy matrimony of the highest kind, the impossible becomes the possible…He is forming us, to entrap God in all of Us. He is gifting us his Light. It is all harbored in the name of God. He resides between the Rivers and under the Trees and Valleys. There are angels in constant motion transpiring our Graces, fruitful and plenty. There are spiritual Kingdoms to grant forth our inhabitants. The Spiritual Essence of Greatness that made this All possible is hidden beneath a cloud somewhere far off.

It is a matter of the Fourth Day that stretched our imagination to give Us plentiful. Now it is all in Recovery; it is foreboding…

God was hovering over the waters, the land and the seas; this marks our aisle, our depletion too of mankind. Its in God we seek justice. We appeal to God's standards in meditation, that's are recovery. But there is still Depletion. The World is Factioned for recovery and it will enable it to take place. We ALL need to gather and stand tall and put our mind's around our beliefs "Great and Small." We ALL need to take that stand in Recovery to appeal to the Universe.

Its about forgiveness, love and plenty here…
